PRESS RELEASE

WOHLLEB RAHMEN acquires Studio Arte AG, strengthening its presence in the Swiss market

Vienna, March 7, 2025 – WOHLLEB RAHMEN, a leading supplier for professional framers, galleries, museums, and wholesalers, announces the acquisition of Studio Arte AG, based in Zurich. With over 15 employees, Studio Arte is the largest custom framing company in Switzerland and has more than 40 years of experience in the high-end framing segment. With this strategic acquisition, WOHLLEB RAHMEN continues its expansion and strengthens its position in the Swiss retail market as well as in the museum and gallery sector.

Through this acquisition, Studio Arte's core business will be strategically expanded while leveraging synergies between the two companies to offer innovative products and customized services for customers in Switzerland.

"With Studio Arte, we are gaining a renowned partner that already has a strong market presence and excellent customer relationships. This acquisition allows us to further expand our service portfolio in the high-end segment and move even closer to our Swiss customers," says Herbert Wohlleb, Managing Director of WOHLLEB RAHMEN.

The existing structures and operational business of Studio Arte will remain in place while benefiting from WOHLLEB RAHMEN's resources. The goal is to further enhance service quality and expand the offerings for museums, galleries, and the retail sector. Additionally, both companies will learn from each other to minimize delivery times and further improve customer satisfaction.

WOHLLEB RAHMEN considers this acquisition a significant milestone in its growth strategy for the DACH region. "By pooling resources and combining traditional craftsmanship with innovative technologies, we are becoming an even stronger partner for our customers in Switzerland and across Europe," adds Herbert Wohlleb.
